We know how important professional photographs are to your event – for your clients, your marketing collateral and your reports.

The shots must capture your event's true spirit, whilst showing everyone in their best light. And they must be the shots you have asked for!

It's what Rix Ryan Photography do best!

Our award-winning team of photographers have been covering the Gold Coast's events for national and international clients for decades, with extensive experience in many mediums – from international magazines, daily newspapers to property.

But the best part...we'll do exactly what you want! Your brief can be as specific or as indistinct as you like. We want to be the least of your worries! We'll ensure all the important aspects are covered. If you're not sure, we'll shoot it anyway! Complimented with a selection of artistic shots – perfect for annual reports.

All this made available to you through an Online Digital Gallery where you or your clients can easily access and download images from your event. You can even choose to display a presentation of your images in time for the end of your event!

"...our brief is always carried out, exceeding our expectations and with the inclusion of additional artistic shots – which are always most appreciated!"
Jackie Gomi, Conference and Exhibition Manager, Hire and Rental Industry Association Conventions.

To Whom It May Concern

This statement is to recommend Rix Ryan Photography as a professional, reliable and friendly company to work with.

For the past five years, I have used Steve and Murray to record our Hire and Rental Annual Convention and could not be happier. So much so, that the Association now fly them interstate when we are away from the Gold Coast. Our suppliers and sponsors react in a positive way, as their friendly and professional attitude achieves such a high standard of photography every time.

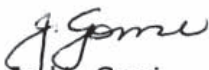

Exhibition photography requires a special attention to detail and in the past, I have used other photographers and been most disappointed with the result. Unfortunately once the event has been dismantled, the chance for recording has passed.

We are extremely fortunate to have built such a wonderful rapport with Rix Ryan Photography. They have now become an integral part of our event, understanding the equipment to be photographed and personalities of the suppliers involved.

Our brief to them is always carried out, exceeding our expectations and with the inclusion of additional artistic shots, which are always most appreciated.

If you require any further information do not hesitate to contact me.

Sincerely

Jackie Gomi
